

IEEE Power & Energy Society SCHOLARSHIP PLUS INITIATIVE®

Preparing the Next Generation of Power & Energy Engineers

Your Partner For Success

IEEE PES SCHOLARSHIP PLUS INITIATIVE

DEVELOPING THE POWER INDUSTRY

INNOVATORS OF THE FUTURE

The program goal is simple—increase the number of well-qualified, entry-level engineers to the power and energy industry.

The **IEEE PES Scholarship Plus Initiative** encourages students to pursue a career in the power and energy fields by providing multi-year scholarships and career experience opportunities to qualifying U.S., Canadian and Puerto Rico electrical engineering undergraduate students.

The Initiative is helping raise awareness of power engineering careers to the highest level it has been among university students.

Questions — pes-scholarship-info@ieee.org

- Launched in 2011
- \$2.6M distributed in scholarships
- 1,172 scholarships distributed to 723 individuals attending 169 universities across the USA, Canada & Puerto Rico
- The number of undergraduates going into power engineering careers has about doubled over the last ten years
- 160+ organizations have hired a PES Scholar
- Expanded to India in 2015

“This scholarship has made such an enormous difference in my life. It is inspiring to see power engineers giving back in this way”

*Mary Scherer—
Ohio State University*
